

Renewable Heating and Cooling in Greek Municipalities

RHC National Roundtable: Greece

This webinar is organised on behalf of RHC – ETIP

Invitation & Agenda

Renewable Heating and Cooling in Greek Municipalities RHC National Roundtable: Greece

11 March 2022 | 14:00 – 16:00 CET | Webinar

OVERVIEW:

The Hellenic Biomass Association (HellaBiom) and the Centre for Research & Technology Hellas (CERTH) invite you to the webinar and national roundtable discussion "**Renewable Heating and Cooling in Greek Municipalities**" taking place, on behalf of RHC-ETIP and under the support of Bioenergy Europe, **on Friday 11th March 2022** (14:00-16:00 CET).

This event aims at exploring the progress made by a representative number of Greece's municipalities in the field of renewable heating and cooling, across a wide technological spectrum, and highlighting the path yet to be covered in order to achieve the energy and climate objectives of the RHC sector to the benefit of local communities, regional development and the environment.
